Projects

Refugee Stars Organisation

<http://refugeestars.org>

I built this website for a non profit startup on a freelance basis. I maintain it all the time. I implemented html forms on this website and used appropriate html form validation on it. I crafted this website with html5, CSS3 and Javascript.

Starbucks demo landing page.

<https://sadir.github.io/landingpage/>

I built this landing page for my self-taught projects. I implemented CSS3 grid and media queries for website responsiveness. I used both CSS3 and HTML 5 to build this website landing page. I hosted this website on github.

Model HTML form

<https://sadir.github.io/html-form/>

I created this html5 form using CSS3 and HTML5 techniques. I implemented grid system and CSS3 media queries for cross-platform responsiveness. I also implemented appropriate html5 for validation techniques.
